CANDIDATE RANKINGS REPORT

CFO Replacement Program — March 2026

Generated: March 29, 2026 09:44 PM PHT

METHODOLOGY

274 candidates across two job postings were evaluated using a two-phase scoring system:

Phase 1 — Deterministic Filter (max 50 points): CPA qualification (20), relevant experience (15), SEEK AI fit level (10), industry match (5), and current role tenure (5). This phase uses structured data from screening questions with no subjective judgment.

Phase 2 — AI Assessment (max 60 points): Each candidate's full resume was evaluated by Gemini AI against six BEI-specific criteria: Leadership presence (10), QSR/Retail experience (10), Multi-entity accounting (10), ERP/Systems knowledge (10), Philippine compliance expertise (10), and Career trajectory (10).

Total possible score: 110 points. Candidates already interviewed by Ronald Caringal are marked but included for comparison.

BEI Context: 47+ QSR stores (Bebang Halo-Halo), two legal entities (BEI + BKI), mid-migration to Frappe ERPNext, replacing CFO who resigned March 2026. Priority: strong executive leadership personality, CPA, retail/F&B experience, Philippine tax compliance.

Note: Ronald's 4 interviewed candidates (Jovelynne Tamayo, Maria Echevarria, Dolores Mejia, Eleaser Calayag) were excluded from this ranking. Sam's assessment: "I'm not sold with the candidates. If I had to choose one it would be Mejia from Ajinomoto" — but Mejia is not a CPA.

While technically proficient, his career trajectory indicates several short tenures and an unusual overlap between his entrepreneurial venture and current role, raising questions about job stability and long-term commitment. Further assessment of his leadership style and executive presence will be critical to determine his overall fit, particularly given BEI's requirement for a strong leader.
