PROFESSIONAL EXPERIENCE

Jr. Operations Manager/ Account Manager, Finance-as-a-Service (FaaS), Payreto, Inc.
June 16, 2025 – present

Client Relations and Engagement

- Serves as the primary point of contact for assigned clients
- Addresses escalations, inquiries, and concerns in a timely manner
- Develops and maintains strong client relationships to ensure satisfaction and retention
- Provides strategic recommendations

Accounting Service Delivery

- Ensures the end-to-end delivery of general accounting services
- Ensures accuracy, timeliness, and compliance in financial reporting and reconciliations
- Monitors workload distribution and adherence to service-level agreements (SLAs)
- Drives process improvements to enhance service quality and efficiency

Internal Audit

- Conducts periodic internal audits to evaluate the effectiveness of financial controls, processes, and compliance with company policies
- Identifies risks, control gaps, and areas for improvement in financial and operational processes
- Prepares internal audit reports, provides recommendations, and follow up on corrective actions
- Partners with management to strengthen internal controls and ensure organizational efficiency

Business Development Support:

- Assists in identifying new market opportunities and potential clients for FaaS offerings
- Supports the development and execution of strategies to expand our service footprint

Service Positioning & Strategy:

- Conceptualizes and proposes innovative ideas to better position our FaaS solutions in the market
- Contributes to the refinement of service narratives and value propositions

Sales & Client Engagement:

- Participates in initial client discussions and sales presentations
- Serves as a key point of contact during the pre-sales and onboarding phases

Pricing & Proposal Preparation:

- Collaborates with senior team members to prepare accurate and competitive pricing proposals for prospective clients
- Assists in drafting service agreements and statements of work

Team Leadership and Development

- Leads and manages Senior and General Accountants within the team
- Assigns responsibilities, monitors performance, and ensures accountability
- Provides coaching, mentorship, and development opportunities
- Conducts performance reviews and recommends training interventions

Team Monitoring & Performance:

- Monitors the daily operations and performance of the FaaS delivery team, ensuring adherence to service level agreements (SLAs)
- Identifies potential bottlenecks and works with team leads to optimize workflows

Account Management:

- Acts as a dedicated Account Manager for a portfolio of existing FaaS clients, fostering strong relationships and ensuring client satisfaction
- Addresses client inquiries, manages expectations, and proactively identifies opportunities for service expansion within existing accounts

Project Management (New Client Onboarding):

- Leads the project management of new client onboarding, from initial setup to successful handover
- Coordinates internal resources and client stakeholders to ensure a smooth transition
- Develops project plans, track progress, manage risks, and ensure timely completion of onboarding milestones
- Facilitates a seamless handover of newly onboarded clients to the ongoing FaaS delivery team

Service Quality Assurance:

- Implements and monitors quality control measures to ensure the accuracy, completeness, and timeliness of all FaaS deliverables
- Contributes to the development and refinement of service delivery standards and best practices

Financial Reporting and Compliance Review

- Conducts random reviews of financial reports prepared by the team to check for compliance with standards and controls
- Verifies alignment with accounting protocols, internal policies, and regulatory requirements
- Supports tax compliance and audits processes by validating key documentation
- Spots potential risks and recommends actions to strengthen reporting integrity

Subject Matter Expertise & Client Support:

- Serves as a primary Subject Matter Expert (SME) for finance and accounting operations, particularly for new clients during the onboarding phase

- Provides expert guidance and support to clients and internal teams when specialized knowledge is required or when other resources are unavailable

Business and Operations Management

- Tracks and reports on service performance metrics and client account health
- Contributes to business planning, forecasting, and resource management
- Contributes to initiatives that strengthen client relationships and expand business opportunities
- Ensures operational alignment with company objectives and client expectations

Continuous Improvement:

- Actively seeks and proposes opportunities for continuous improvement within the FaaS operations team, including process optimization, technology adoption, and service delivery enhancements
- Stays abreast of industry best practices and emerging technologies in finance and accounting

Other Tasks:

- Performs other official work as instructed by the immediate supervisor
