PROFESSIONAL EXPERIENCE

FINANCIAL PLANNING & ANALYSIS MANAGER

DHL Summit Solutions, Inc. | May 2023 – Present

Lead strategic financial planning and performance management for transport operations representing approximately €50M in revenue across the Philippines and contributing to the Southeast Asia cluster. Provide executive decision support to the CFO and senior leadership on profitability, capital allocation, and operational strategy.

Key Leadership Scope

- Oversee forecasting, budgeting, and financial reporting for a €43M cost base with €4M EBIT target
- Lead consolidation of financial outlook across multiple SEA entities for Connected Control Tower operations
- Manage a finance team of six (including managers across GL, AR, AP, and associates)
- Present financial performance and strategic insights to CFO, C-suite, and regional leadership

Selected Achievements

Profitability & Operational Transformation

- Identified underutilized routes and collaborated with operations to increase vehicle utilization from 60% to 90%, lifting margins from 12% to 16%
- Introduced lane-level profitability analysis influencing pricing adjustments and client rate reviews

Capital Investment & Strategic Projects

- Led financial business case for acquisition of 45 trucks (including EV fleet), projected to contribute 10% of annual EBIT and improve margins to 17%
- Partnered with operations and solutions teams to align investments with sustainability and growth objectives

Process Innovation & Automation

- Automated fleet profitability tracking, reducing reporting preparation time by 92% and improving decision speed
- Bridged operational and financial reporting to enhance visibility into performance drivers

Forecasting & Financial Discipline

- Maintained forecast variance within ±10% month-to-month
- Supported budget planning, headcount modeling, and long-range planning across business units

Strategic Business Partnering

- Evaluated new business opportunities, contract renewals, and capital projects through financial modeling and scenario analysis
 - Influenced pricing strategies and operational decisions through profitability insights
-

ASSISTANT FINANCE MANAGER

Lala Automotive Philippines, Inc. | 2022 – 2023

Served as second-in-command to finance leadership, integrating financial strategy with operational execution across automotive and logistics entities.

- Designed a cost-management framework improving budget discipline across two entities
 - Oversaw daily finance operations and ensured compliance with audit and tax requirements
 - Temporarily assumed operations leadership, aligning logistics execution with financial performance targets
 - Introduced cost-allocation methodologies that clarified margins by business line
-
