Experience

DEUTSCHE TELEKOM SERVICES EUROPE (DTSE); BONN, GERMANY

HEAD OF BUSINESS ANALYTICS & STEERING – OCT 2024 - MAR 2026

Overall accountability for DTSE's workforce management, analytics, and reporting landscape. In this capacity, oversee the development of data-driven insights, enable strategic decision-making through advanced analytics, and ensure effective planning and steering of workforce resources. Drive the implementation of robust reporting frameworks and foster a culture of data transparency and performance management across the organization.

TEAM LEAD HR PROCESS TRANSFORMATION – MAR 2023 - SEP 2024

Leading a group of diverse subject matter experts dedicated to reengineering and modernizing HR processes. Led strategic transformation initiatives, introduced best practices, and collaborated with cross-functional stakeholders to streamline workflows, reduce complexity, and improve overall service delivery within HR.

HR GLOBAL PROCESS OWNER – AUG 2022 - FEB 2023

Responsible for the governance, standardization, and continuous optimization of core HR processes across the organization. In this role, ensured alignment with global standards, identified improvement opportunities, and drove initiatives to enhance process efficiency, quality, and compliance.

DELOITTE; KÖLN, GERMANY

SENIOR RISK ADVISOR – APR 2020 - JUL 2022

Consultant specializing in implementing third-party risk and contract management frameworks for insurance clients, with experience building programs from the ground up. Skilled in developing policies, governance structures, and risk assessment processes, while collaborating with stakeholders to ensure compliance, strengthen vendor oversight, and streamline contract lifecycles.

BAYER BUSINESS SERVICES GMBH; LEVERKUSEN, GERMANY

GLOBAL PROCESS OWNER CONTRACT MANAGEMENT – JUN 2019 - FEB 2020

Accountable for the design, development, and quality of contract management execution, ensuring strong compliance and control frameworks. Leads the implementation and monitoring of global KPIs while driving end-to-end process efficiency through continuous improvement of policies, procedures, and systems. Oversees process performance, documentation (including procedures, controls, and workflows), and alignment with external interfaces, while approving country-specific materials. Partners with cross-functional stakeholders, including demand management, pre-signing process owners, and IT, to evaluate and prioritize enhancements, support user acceptance testing, and act as the primary escalation point for process-related issues. Also collaborates with service teams to maintain and update training materials in line with system and process changes.

GLOBAL PROJECT LEAD CONTRACT MANAGEMENT – JUN 2017 - FEB 2020

Responsible for defining milestones and detailed plans aligned with strategic business objectives, ensuring effective execution through close collaboration with cross-functional teams and stakeholders. Oversees team activities to maintain alignment with project timelines, drives fit-gap analysis between local and global processes, and ensures adherence to global standards while managing and approving necessary local deviations. Works closely with compliance, risk, and local stakeholders to address country-specific requirements, while leading IT-enabled testing and supporting successful system implementation. Provides regular status updates to senior leadership and steering committees, ensures alignment with the Target Operating Model, and serves as a subject matter expert on process and system functionalities to guide project teams.

PROJECT MANAGEMENT OFFICER – MAR 2017 - JUN 2017

Responsible for driving contract management workstream activities, ensuring alignment with global process design while documenting and managing local deviations. Works closely with global process leads to resolve and escalate transition issues, facilitates cross-workstream collaboration, and serves as the key interface between global transition and process teams. Oversees tracking of transition deliverables, manages collaboration platforms such as SharePoint, and coordinates, prepares, and documents project meetings to support effective communication and execution.

BAYER BUSINESS SERVICES PHILIPPINES INC.; TAGUIG, PHILIPPINES

TEAM LEAD - FINANCIAL ACCOUNTING – JAN 2016 - FEB 2017

Leading a team of 15 accountants, including senior experts, to deliver high-quality financial accounting services and achieve business objectives. Oversees end-to-end financial processes such as asset management, general ledger, and closing, ensuring compliance with controls, service levels, and global standards. Acts as the primary escalation point for process and operational issues, while driving best practices, cross-functional collaboration, and knowledge management across front and back office functions. Partners with global stakeholders to implement standardized processes, systems, and controls, and leads key initiatives including

system migrations, transitions, and process improvements. Additionally, spearheads global reporting excellence initiatives, ensuring consistent KPI achievement and continuous team development. alignment with external interfaces, while approving country-specific materials. Partners with cross-functional stakeholders, including demand management, pre-signing process owners, and IT, to evaluate and prioritize enhancements, support user acceptance testing, and act as the primary escalation point for process-related issues. Also collaborates with service teams to maintain and update training materials in line with system and process changes. and workflows), and alignment with external interfaces, while approving country-specific materials. Partners with cross-functional stakeholders, including demand management, pre-signing process owners, and IT, to evaluate and prioritize enhancements, support user acceptance testing, and act as the primary escalation point for process-related issues. Also collaborates with service teams to maintain and update training materials in line with system and process changes.

SENIOR PROCESS EXPERT - FINANCIAL ACCOUNTING – FEB 2014 - JAN 2016

Deputy team lead, supporting the supervision of operations and ensuring effective performance across the shared services environment. Led the financial accounting reporting module for Service Center Manila, monitoring KPIs and ensuring timely handover of front-office activities to accounting platforms. Acted as a key point of contact for global and regional stakeholders, including North America entities, while providing expert guidance on complex reporting issues and delivering cross-team training. Collaborated closely with global offices to support reporting activities, contributed to global initiatives and rollouts, and actively participated in governance forums to address operational topics impacting month-end closing and reporting.

PROCESS EXPERT - FINANCIAL ACCOUNTING – DEC 2012 - JAN 2014

Experience in global operations and transitions, contributing to the successful migration of front-office accounting activities from Barcelona to Manila for Japan Material Science entities. Managed end-to-end closing and reporting cycles (monthly, quarterly, yearly) for major U.S. pharmaceutical operations, while overseeing reporting activities across multiple legal entities. Collaborated closely with cross-regional teams to ensure timely activity handovers, delivered in-depth analysis on complex reporting issues, and conducted training to enhance team capability. Recognized for providing high-quality support and customer service to stakeholders in the United States and Japan, ensuring accurate and efficient financial reporting.

TAKEDA PHARMACEUTICALS PHILIPPINES INC.; MAKATI, PHILIPPINES**FINANCIAL CONSULTANT – AUG 2012 - DEC 2012**

Responsible for inventory management through obsolescence provisioning and handling of near-expiring, damaged, and returned goods. Conducted variance analysis with a focus on spending, including reconciliation of purchase price, volume, and rate variances. Managed end-to-end invoice processing, verification, and vendor coordination, while ensuring accuracy and compliance in accounts payable activities. Also responsible for reviewing invoice postings prior to payment and overseeing the recording of accruals for outsourced services, IT expenses, and office equipment.

SC JOHNSON PHILIPPINES ROHQ; MAKATI, PHILIPPINES**COST ANALYST AND OPERATIONS COST ANALYST – NOV 2010 - JULY 2012**

Extensive experience in standard costing, budgeting, and variance analysis. Developed semi-annual SKU-level frozen standards in line with Global Costing Methodology and analyzed changes in standard costs, presenting findings to the Finance Director. Collaborated with marketing and operations teams to estimate costs for new and re-staged products, performed sourcing and make-or-buy studies, and managed functional expense budgeting. Conducted monthly cost of sales and production variance analysis, working closely with operations, finance, and purchasing managers to identify root causes and propose corrective actions. Oversaw inventory monitoring, write-offs, and production order settlements in SAP, while preparing and leading operational review meetings to discuss performance and drive process improvements.
