- Financial Planning, Analysis & Executive Reporting
- Budgeting, Forecasting & Performance Management
- Cash Flow Management, Working Capital & Profitability Analysis
- Technical Accounting Compliance (IFRS / PFRS)
- Internal Controls, Risk Management & Governance
- ERP Implementation & Finance Systems Transformation
- Stakeholder Engagement, Cross-Functional Collaboration & Team Leadership

PROFESSIONAL EXPERIENCE

Head of Finance & Accounting | Brilliant Skin Essentials (Group of Companies) | Feb 2024 – Present

- Leads the finance function of a diversified business group generating approximately ₱2.5B in annual revenue, spanning CPG manufacturing & distribution, construction, aesthetic medical services, retail, spa, and casual dining.
- Oversees group financial reporting and strengthens financial governance across entities by continuously improving reporting consistency, internal control practices, and finance accountability.
- Introduced structure to the financial close process by establishing reporting timelines, reconciliation practices, and review checkpoints.
- Transitioned finance operations from manual bookkeeping to accrual-based accounting through the implementation of Xero across multiple entities.
- Designed finance process architecture covering Procure-to-Pay (P2P), Order-to-Cash (O2C), and Record-to-Report (R2R) workflows to support operational consistency and financial visibility.
- Established structured financial planning, analysis, and reporting practices to support leadership decision-making.
- Initiated and currently leading the finance workstream for the NetSuite ERP implementation, including finance process design, data architecture, and reporting alignment.

Functional Consultant | Oracle NetSuite (Philippines) Corporation | May 2021 – May 2023

- Served as the functional bridge between finance stakeholders and technical teams for North American clients, translating business requirements into configured NetSuite solutions across Order-to-Cash (O2C) and Procure-to-Pay (P2P) workflows, with supporting involvement in general ledger and period close processes.

- Conducted requirements sessions and aligned operational processes with system configuration, including approval routing, posting logic, role-based access, and internal control design considerations.
- Configured and supported core financial functionality including customer/vendor master data, credit management, collections, 3-way match controls, electronic payments, journal workflows, and period close processes.
- Developed custom forms, fields, and workflow automations to strengthen process governance and operational efficiency.
- Designed saved searches, financial reports, and dashboards to improve reporting visibility and support financial oversight.
- Managed role permissions and segregation-of-duties controls, and supported testing cycles, data validation, and post-go-live stabilization.

Accounting & Tax Consultant (Part-Time) | Airecology, Inc. | Feb 2021 – Sep 2024

- Established accounting policies and internal controls for a subcontractor serving major condominium projects in the Philippines.
- Developed business process documentation for bookkeeping, payroll, inventory, and tax workflows.
- Managed periodic tax compliance and interpreted financial reports for the business owner, providing guidance on compliance and reporting implications.

Internal Audit Senior Analyst | Accenture | Oct 2020 – Apr 2021

- Member of a global internal audit team conducting risk-based reviews of operational and financial processes across the Accenture audit universe.
- Evaluated internal controls across HR operations and project delivery cycles, including payroll, benefits administration, onboarding/offboarding, contract compliance, and revenue recognition and project billing processes.
- Assisted in developing audit programs, test plans, and working papers in accordance with IIA standards and internal audit methodologies.
- Identified control gaps and operational risks and recommended improvements to strengthen governance and process reliability.
- Prepared audit documentation and reports for engagement leadership and supported follow-up reviews to monitor remediation of audit findings.

Senior Associate | SyCip, Gorres, Velayo & Co. (EY Philippines) | Aug 2019 – Aug 2020

- Led audit engagements across multiple industries, overseeing planning, execution, and completion while ensuring compliance with PFRS and auditing standards.
- Participated in the design and execution of audit procedures related to the preparation and review of the parent company's consolidated financial statements, as well as complex accounting areas including revenue recognition (IFRS 15) and lease accounting (IFRS 16).
- Reviewed financial statements and audit working papers to ensure accuracy and compliance with applicable accounting and disclosure requirements.
- Evaluated internal control environments and performed substantive audit procedures across key financial reporting areas.
- Supervised and mentored junior audit staff, reviewing work outputs and providing guidance on audit procedures and documentation standards.
- Communicated audit findings, control observations, and financial reporting issues to clients and engagement leadership.

Associate | SyCip, Gorres, Velayo & Co. (EY Philippines) | Jul 2017 – Aug 2019

- Performed audit procedures across diverse industries including manufacturing, energy, holding companies, and non-profit organizations.
- Documented business processes and transaction cycles to support risk assessment and audit planning.
- Tested internal controls and performed substantive procedures to validate financial statement balances.
- Prepared financial statements and supporting schedules in accordance with PFRS.
- Contributed to audits conducted in both SOX and non-SOX environments.

Customer Service Representative | Concentrix | Apr 2014 – Apr 2015

- Delivered customer support for a global online retailer.
- Promoted to Subject Matter Expert within four months to manage escalations and floor support.
