PROFFESIONAL SUMMARY

Finance professional with over eight years of experience in multi-entity and cross-border operations. Currently serving as Head of Finance, while also entrusted with corporate governance roles as Director and Corporate Treasurer for Philippine entities. I oversee the financial operations of 11 legal entities across the Philippines, Australia, Singapore, Malaysia, and Vietnam, working closely with leaders and teams to maintain accurate reporting, compliance, and steady financial management.

I have built my career around modern, technology-driven finance, helping transition the organization from manual, traditional processes to more automated, data-focused systems. I have led the adoption of accounting platforms, workflow tools, analytics dashboards, and custom-built automation solutions that reduced repetitive tasks, strengthened controls, and made financial insights more accessible to decision-makers. My approach remains collaborative and people-centered, ensuring that technology improvements genuinely help the team and enhance their capabilities.

I am currently pursuing my Doctorate in Business Administration (DBA) to further deepen my understanding of responsible financial leadership, governance, and strategic decision-making. I hope to grow into roles such as Finance Director, Group Finance Manager, Corporate Controller, Regional Finance Director, and eventually CFO, where I can continue contributing through modernized finance operations, thoughtful leadership, and reliable financial stewardship.
