SUMMARY

Experienced finance professional with a strong background in Financial Reporting and Financial Planning & Analysis. Proven collaborator, adept at working cross-functionally with departments such as actuarial, operations, marketing, and legal. Gained expertise in IFRS 17 implementation for group reporting and served as the company representative during the initial stages of PFRS 17 reporting to the Insurance Commission. Highly skilled at navigating complex regulatory environments and delivering strategic financial insights.

WORK EXPERIENCE

Regional Accounting & Control Manager Sun Life Financial Asia Services Limited

Jun 2025- Present

- Ensure the books of the Business Units (BUs) are closed in a timely manner according to the agreed schedule, including monitoring that key control processes are operating effectively.
- Prepare financial reports and analyses for submission to the regional office finance team and central accounting.
- Participate in the impact assessment of new standards or amendments to existing IFRS and corporate standards.
- Provide guidance on various accounting issues and support regional initiatives to streamline accounting processes and improve operational efficiency across the region; identify areas for automation and implement technological solutions to optimize financial operations.

Planning & Group Reporting Manager Allianz PNB Life Insurance

Mar 2020 - June 2025

Planning & Reporting Function

- Prepared and presented monthly, quarterly, and annual management reports on key performance indicators (KPIs), including variance analyses, moving quarterly forecasting, and developing narratives for our Regional reporting based in Singapore and internal key stakeholders.
- Oversaw the development of the company's three-year financial plan by collaborating closely with various departments—including Actuarial, Risk Management, Sales and Distribution, Marketing, and Human Resources—to ensure that all figures and reports are accurate, consistent, and aligned.
- Tracked company performance against industry benchmarks and developed finance presentation materials for executive and board stakeholders.
- Report and upload IFRS 17 results on a monthly and quarterly basis to the region. Reviewed and checked the accuracy of each profit source by quickly aligning with the actuarial team to ensure that large or abnormal movements are identified, reviewed, and properly explained.
- Conducted comprehensive reviews of expense reports at both the functional and cost center levels, emphasizing the identification of variances from the planned budget. The review process also verifies the correct allocation between attributable and non-attributable expenses, as well as the split between acquisition and maintenance costs. Ensures that expense ratios remain on target; otherwise, provides clear explanations along with any necessary mitigation strategies.

Statutory and Compliance reporting

- Lead the review and timely submission of all quarterly regulatory reports to the Insurance Commission, ensuring compliance with requirements such as QRSFS, SPUCRI, RPT, OFCS, and FRF.
- Served as the primary liaison with external regulators, delivering prompt and accurate responses to regulatory inquiries and managing non-admitted asset levels through cross-functional coordination.
- Oversaw the preparation and final review of the company's Annual Statement, guaranteeing consistency across all departmental submissions and proactively monitoring regulatory updates impacting reporting.

General Ledger Finance Executive Air Asia Global Shared Services

May 2018 - Nov 2019

- Prepared and analyzed comprehensive financial reports for local Thailand finance teams and stakeholders, identifying and adjusting for significant fluctuations in income and balance sheet items.
- Ensure timely resolution of outstanding accounting issues, escalating unresolved matters to management within established deadlines.
- Oversaw monthly accounting processes, including accruals, reversals, provisions, payroll, bank transfers, prepayment amortization, and inter-company revenue and expense transactions.
- Conducted detailed analyses, including FOREX and route profitability for AirAsia Thailand, and developed recommendations to streamline accounting workflows while maintaining audit and control standards.
- Managed and tracked monthly bank reconciliations, promptly resolving any outstanding bank transactions. Verified that all inter-company balances were matched and confirmed with respective entities. Assessed unresolved inter-company items and suggested appropriate journal entries when necessary.

Audit Associate Isla Lipana & Co, PwC

Nov 2016 - May 2018

- Carried out critical audit procedures according to comprehensive plans, thoroughly documenting the entire audit workflow and outcomes. Shared significant observations with both the team and clients, offering recommendations to address errors or inaccuracies in financial statements.
- Determined essential controls and reports for SOX projects, analyzed their adequacy, evaluated how effectively controls were performed, and conducted remediation testing to confirm corrections by year-end.
- Reviewed audit findings and provided suggestions for enhancing client business practices.
- Supported senior associates by compiling financial statement disclosures and preparing movement analyses for different account items.
