OBJECTIVE:

Join a company that offers challenging tasks in accounting and auditing related matters with opportunities for career advancement.

JOB EXPERIENCE:

Company:	Fibercom Telecom Phils., Inc.	April 2021 – Present
Position:	Financial Controller	
Company Industry:	Telecom	
Responsibility:		

- Accountable for the accounting operations of the companies assigned to include the production of periodic financial reports, maintenance of an adequate system of accounting records, build up and implementation of comprehensive set of controls, establish the accuracy of the company's reported financial results, and ensure that the reported results comply with the generally accepted accounting principles and reporting standards. Ensure good governance and compliance with all laws and taxation requirements.

Management

- Build up and maintain a documented system of accounting policies and procedures.
- Oversee the operations of the accounting department including the design of the organization structure adequate for achieving the department's goals and objectives.
- Oversee the accounting operations needed to provide profitability reports by projects and sites, especially the control systems, transaction processing operations and policies and procedures.

Transactions

- Ensure that accounts payable are paid accurately and are paid in a timely manner.
- Ensure that all reasonable credit periods are taken on accounts payable.
- Ensure that critical services and costs are accurately recorded by project codes – by client, by area, by project and site and department accountabilities.
- Ensure that accounts receivable is collected promptly.
- Process and ensure payroll in a timely manner.
- Ensure that periodic bank reconciliation and balance sheet reconciliation are completed monthly no longer than 8th day of the following month.
- Ensure that all intercompany transactions and advances are reconciled.
- Ensure that the required debt payments are made on a timely basis.
- Maintain the GL and chart of accounts as well as project completion reports and monthly tracking.
- Maintain an orderly accounting filing and organization ensuring all the necessary receipts and documents are kept for future BIR audits and checks.
- Prepare cash flow statements.
- Maintain a system of controls over accounting transactions.

Reporting

- Issue timely and complete financial statements.

- Coordinate the preparation of the corporate annual reports.
- Review all BIR filings and report submissions.
- Manage the production of profit and loss by projects and area.
- Provide the necessary financial analysis and exceptions in controls.

Compliance and Governance

- Compile the financial information and coordinate the provision of information to external auditors for the annual audit.
- Comply with all government reporting and all BIR Filings.
- Coordinate any BIR audits and prepare reports on the identification of tax risks and provide the necessary controls and process.
- Other additional accountabilities that may be assigned from time to time.

Key Output/Outcome of the Position:

- Effective and efficient operation of the Department
- Financial Reports to the Management
- Compliance and good governance
- Well-managed cash flow of the Company
- Accurate and timely payment of payroll and employee benefits
- Managed inventories and warehouse
- Others that are enumerated in the above description.
