WORK EXPERIENCE

Bacolod City and Negros Occidental based Co's

Management Advisor

October 2007 - Present

Provides consulting services to top management of companies that engaged in fuel and petroleum products distribution, medicines and medical supplies distribution, quarry (lime) and wood chips productions, food manufacturing and retail, construction, hospitals and other related healthcare facilities including diagnostics centers, to improve organizational efficiency, effectiveness, and resource utilization to achieve business goals. Key areas and functions are:

- Financial Management & Advisory: Budgeting, cost analysis, and financial reporting.
- Strategic Planning: Identifying opportunities, developing strategic plans, and conducting feasibility studies.
- Operational Improvement: Reengineering business processes, improving organizational structures, and implementing new technologies.
- Risk Management: Business fraud investigation and internal control evaluations.
- Implementation Support: Assisting with the implementation of new systems or processes.

Franchisee

2015 - 2023

- Managed a food and beverage franchise

Vallacar Transit, Inc., Bacolod City, Phils.

• VP for Finance

March 3, 2014 – July 23, 2018

Manage the group's overall financial health, including budgeting, financial reporting, risk management, and strategic planning. Lead the group accounting and finance teams, ensure regulatory compliance, and advise the President & CEO and the Board on investment decisions and cost-saving opportunities. Key responsibilities are:

- Financial Strategy & Planning: Devises financial strategies to achieve company goals, creates annual budgets, and develops financial forecasts.

- **Financial Reporting & Analysis:** Ensures accurate, timely financial statements (PFRS compliant), manages month-end/year-end closings, and monitors performance against budgets.
- **Risk Management & Compliance:** Oversees internal controls, ensures compliance with tax laws and regulations.
- **Treasury & Cash Flow Management:** Monitors cash flow, manages bank relationships, and handles investment plans and capital structure decisions.
- **Team Leadership & Optimization:** Builds high-functioning finance teams, hires and oversees accountants, and implements technology to automate reporting processes.
- **Procurement and Asset Management:** Oversees high-level purchasing and manages financial assets.

- **Internal Audit Manager**

Dec. 2008 – March 3, 2014

Oversees the group's risk management, internal controls, and governance processes, reporting findings to President & CEO and the Board. They develop annual audit plans, lead audit teams in executing field work, and recommend improvements to ensure compliance with policies, regulations, and industry standards. Key responsibilities are:

- **Audit Planning & Execution:** Develop and implement risk-based annual audit plans, overseeing financial, operational, and compliance audits.
- **Risk & Control Assessment:** Evaluate the design and operating effectiveness of internal controls and identify areas of significant business risk.
- **Reporting & Communication:** Prepare and present detailed audit reports, highlighting control weaknesses and recommending corrective actions to branch management, President and CEO and the Board.
- **Team Leadership:** Supervise, train, and mentor staff auditors, ensuring audit engagement quality and adherence to professional standards.
- **Compliance & Investigations:** Ensure compliance with legal and regulatory requirements and lead special investigations into suspected fraud or policy violations.
- **Relationship Management:** Liaise with external auditors to provide support and coordinate audit activities.

- **Head Office Finance and Accounting Manager**

Oct. 2007 – Dec. 2008

Directs the daily financial operations, including general ledger maintenance, accounts payable of head office and branch offices, payroll, and month-end closing, while ensuring compliance with regulations. Key roles involve preparing accurate financial reports, budgeting, forecasting, managing cash flow, and leading the accounting team. Core responsibilities are:

- **Financial Reporting & Analysis:** Preparing accurate, timely monthly, quarterly, and annual financial statements in compliance with PFRS. Analyzing financial trends, variance analysis (budget vs. actual), and advising the Vice President for Finance on performance.

- **Operational Accounting:** Overseeing the general ledger, accounts payable/receivable, cash receipts, and payroll. Ensuring proper recording of fixed assets, debt activity, and account reconciliations.
 - **Budgeting & Cash Flow Management:** Managing company budgets, establishing guidelines, and overseeing cash flow to ensure sufficient working capital.
 - **Compliance & Risk Management:** Ensuring compliance with financial laws, tax regulations, and internal controls. Managing relationships with external auditors and tax authorities.
 - **Team Leadership:** Supervising, mentoring, and training accounting staff, including reviewing team tasks to ensure accuracy and efficiency.
 - **Systems Management:** Working with Vice President for Finance to improve accounting systems and software for better efficiency.
- **Finance & Accounting Manager, Butuan City** **Apr 2005 – Oct. 2007**
 - **Finance & Accounting Manager, CDO, Phils** **June 2004 – Apr 2005**

Handles all financial operations at a local branch, ensuring accurate reporting, compliance, and cash flow management. Key roles include leading accounting staff, managing budgets, reconciling accounts, processing payroll, and providing financial analysis to support strategic decision-making and ensure profitability. This function bridges the gap between branch office operations and head office, maintaining the financial health of the branch. Key responsibilities are:

- **Financial Reporting and Analysis:** Prepare monthly, quarterly, and annual financial statements, including P&L reports, and analyze variances against the budget.
 - **Accounting Operations:** Manage accounts payable and cash flow, ensuring all transactions are accurately recorded in compliance with accounting standards.
 - **Budgeting and Forecasting:** Assist in developing branch budgets and track financial performance against projections to support cost management.
 - **Internal Controls and Compliance:** Implement and maintain internal controls to safeguard assets, ensuring compliance with tax laws, local regulations, and corporate policies.
 - **Team Leadership:** Supervise, train, and mentor accounting staff to ensure timely and accurate work.
 - **Audit Management:** Coordinate with internal and external auditors for year-end audits and maintain required documentation.
 - **Cash Management:** Monitor and control cash inflows and outflows to ensure operational liquidity.
- **Internal Auditor (Head Office Based)** **June 2, 2003 – June 2004**

Objectively evaluate group's risk management, control, and governance processes to improve operations and ensure compliance with laws. Key responsibilities include auditing financial records, identifying risks, testing internal controls for accuracy and efficiency, investigating fraud, and reporting findings to senior management or the Board thru Internal Audit Manager. Core responsibilities and objectives are:

- **Risk Management Assessment:** Identifying and prioritizing risks to the company and evaluating the effectiveness of risk mitigation strategies.
- **Internal Control Evaluation:** Reviewing financial and operational controls to ensure accuracy in record-keeping, safeguarding assets, and detecting inefficiencies.
- **Compliance Monitoring:** Ensuring the organization adheres to legal regulations, industry standards, and internal policies.
- **Operational Improvement:** Reviewing procedures for efficiency, promoting ethics, and recommending improvements to increase productivity.
- **Fraud Investigation:** Investigating instances of suspected fraud, mismanagement, or breaches in company policy.
- **Reporting and Communication:** Presenting audit findings, recommendations, and action plans to senior management and the Board of Directors/Audit Committee.
- **Coordination with External Auditors:** Often coordinating with external audit teams to ensure efficient coverage.

Joshua P. Genita, CPA – Auditing Office, Bacolod City, Phils.

- **Junior Audit Staff** **July 2002 to May 2003**
 - Carry out external audit activity to clients of the company in conformity with the Philippine Standards of Auditing.

Diamond Laboratories, Inc. – Quezon City, Phils.

- **Junior Internal Audit Staff** **July 2001 – Sept. 2001**

Supports senior auditors by executing foundational audit procedures, preparing working papers, and examining financial records to ensure compliance and accuracy. Key duties include reconciling accounts, verifying assets/liabilities, documenting findings, and assisting in audit planning and risk assessment under supervision. Responsibilities and duties are:

- **Fieldwork Execution:** Performing daily/weekly account reconciliations, vouching, and tracing transactions to supporting documentation.
- **Documentation & Reporting:** Completing audit working papers, documenting tests of controls, and summarizing findings in accordance with audit standards.
- **Compliance & Risk:** Evaluating client internal control systems and verifying adherence to company policies and regulatory requirements.
- **Data Collection & Communication:** Gathering information through client interviews and analysis of financial statements to support audit evidence.

- Team Support: Assisting in the planning phases of audits and contributing to the preparation of final audit reports

• Inventory Staff

July 2000 to July 2001

Responsible for accurately tracking, receiving, storing, and organizing stocks. Conducts regular physical counts, reconciling discrepancies with computer records, processing incoming/outgoing shipments, and monitoring stock levels to prevent shortages. Key duties are:

- Inventory Tracking & Recording.
 - Maintain accurate inventory records using management software.
 - Perform regular physical inventory audits and cycle counts to ensure accuracy.
 - Report discrepancies (shortages or surpluses) to management to investigate theft or recording errors.
- Stock Management & Organization.
 - Receive, unload, and inspect incoming shipments for damage or quantity discrepancies.
 - Label, organize, and store items in their designated areas within the warehouse.
 - Stock and replenish shelves or workstations.
 - Monitor stock levels and report low inventory to facilitate reordering.
 - Identify slow-moving or obsolete inventory for disposal or clearance.
- Logistics & Coordination.
 - Coordinate with procurement or purchasing teams to ensure timely arrival of goods.
 - Prepare items for shipment and coordinate with logistics teams.
- Operational Safety & Maintenance.
 - Ensure the storage area is clean, safe, and orderly.
 - Adhere to safety procedures when handling materials.
